NAGAI, N: Vapor condensation behind a shock wave propagating through a large molecular-mass medium, 7T283
- Leidenfrost temperature on an extremely-smooth surface, 8A1129
NAGAKI, H: Effect of sulfur dioxide in recirculated exhaust gas on wear within diesel engines: Relationship between wear and amount of SO_2 absorbed by lubricating oil film, 1T1344
NAGALI, V: Scanned- and fixed-wavelength absorption diagnostics for combustion measurements using multiplexed diode lasers, 8A1052
NAGAMANI, K: Finite element method analysis of nonlinear dynamic response of articulated towers, 8A143
NAGAMATSU, A: Integrated optimum design of structure and H^{∞} control system, 6A717
NAGAMINE, Y: Buckling modes of plate-girders curved in plan, 1A909
NAGAMUNE, A: Ultrasonic inspection system for tubular products using real-time digital signal processing, 4A780
NAGANARAYANA, BP: Beam elements based on a higher order theory - I: Formulation and analysis of performance, 4A544

- Beam elements based on a higher order theory - II: Boundary layer sensitivity and stress oscillations, 4A545
NAGANO, H: Corrosion resistance and rust structure of weathering steels and iron antiquities (Japanese), 6A619
NAGANO, Y: Coherent motions and heat transfer in a wall turbulent shear flow, 6A990
NAGAO, M: Numerical study of turbulent structure over slip roughness in open channel flow using a low Reynolds number turbulence model, 3A881
NAGAOKA, H: Cross effect in aluminium tubes subjected to torsion and tension, 7A525
NAGAR, A: Fatigue and Fracture at Elevated Temperatures, AD-Vol 50 - Proc from Int Mech Eng Congress and Expo, Nov 1995, San Francisco, 4N15
NAGARAJ, VT: Approximate formula for the frequencies of a rotating Timoshenko beam, 11T103
NAGARAJAN, A: Boundary contour method for 3D linear elasticity, 12A485
NAGASAKA, K: Study on the extension of the grinding conditions database: Learning and prediction by the linear model (Japanese), 7A755
NAGASE, Y: Mechanical structures of bamboos in viewpoint of functionally gradient and composite materials, 11A478
NAGASHIMA, A: Thermal diffusivity and porosity of solid materials by electromagnetic ultrasonic technique - Part 2, 2A1227
NAGATA, K: General characteristics of two-phase flow distribution in a multipass tube, 9A1257
NAGATA, M: Nonlinear solutions of modified plane Couette flow in the presence of a transverse magnetic field, 7A1142
